Introduction

President's Message

A Message from Dr. Janelle Ashley, President of Worcester State University

It is my pleasure to note that the college you have always trusted has now become a university. The Governor and Legislature established university status for Worcester State University, and its eight sister state institutions, in October.

WSU qualifies for university status according to the classification of institutions of higher education established by the Carnegie Foundation for the Advancement of Teaching. The Carnegie Foundation recognizes different types of universities. While there are research universities, such as the University of Massachusetts, there are also regional master's level universities, defined as, "generally including institutions that award at least 50 masters degrees and fewer than 20 doctoral degrees per year." Worcester State University falls into this category and is proud to have been offering master's degrees to our students for decades. Our graduate programs

in education, nursing, biotechnology, business and many other programs provide the educational tools our students need to achieve their goals.

Despite the many changes in our long history, our mission remains the same: to enrich the lives of our students through excellence in education. The world is not the same today as it was in 1874 when we were founded, and it is fitting that we embrace our new university status and everything it has to offer our students, alumni and the region.

The importance of this Fact Book and our reliance on hard data to drive our decision-making process remains as crucial today as it has always been.

I do hope this resource will prove valuable to you and I encourage you to contact the Office of Institutional Research with any questions you may have.

Sincerely, Janelle Ashley President

Board and Administration

Brief History of WSU

1874	The State Normal School in Worcester was founded on September 11.
1921	The Normal School introduced a four-year Bachelor of Science in Education.
1932	The Normal School became Worcester State Teachers College (WSTC).
1941	WSTC became the first Massachusetts teachers college to earn professional accreditation from the American Association of Teachers Colleges.
1952	The College introduced a Master of Science in Education.
1963	The Board of Education renamed the school Worcester State College to reflect the expansion of Liberal Arts and Science disciplines.
1974	The College introduced a Bachelor of Science in Business Administration and established the Graduate School. 1974 also saw the establishment of the Nursing Program, the first Bachelor of Science program for registered nurses in New England, and the first to be accredited by the National League of Nursing.
1980	The area's first Master of Science in Speech-Language Pathology was offered, and the area's first college-operated Speech, Language, and Hearing Clinic was established.
1984	The first baccalaureate-level Occupational Therapy program in the Massachusetts State College system was established. These offerings expanded to include a Master of Occupational Therapy in 1998.
2000	The College established a Master of Science in Health Care Administration, built a state-of-the- art athletic field, established a campus-wide area network and website, and opened the Kalyan K. Ghosh Center for Science and Technology.
2002	The Board of Trustees appointed Janelle C. Ashley as WSC's 10th president.
2003	The Development and Alumni Relations Office generated a record amount of funding from private sources and increased the number of donors to the highest level in the College's history.
2004	The new six-story Wasylean Hall opened to 348 students, bringing the resident student population to nearly 1,000. The office of Institutional Advancement raised over \$2.2 million from over 3,500 donors, a record-breaking milestone at the College.
2005	The Eugene A. Sullivan Academic Center opened as a fully refurbished building equipped for full wireless technology and multi-media capability in every classroom.
2007	The first parking garage in the state college system was opened at the College.
2008	Worcester State College was one of only 200 colleges nationwide to be named to the President's Higher Education Community Service Honor Roll for exemplary service efforts and service to disadvantaged youth.
2009	The College introduced a new major in Interdisciplinary Visual & Performing Arts, and formed an alliance with the Worcester Center for Crafts to enhance studio space for students. The newly renovated Administration Building also opened, with a first-floor student mall to streamline services for students.
2010	The Massachusetts Legislature voted to grant university status to all Massachusetts state colleges. The old Worcester Normal School had officially evolved into Worcester State University.

Core Values

Worcester State University values inclusiveness and diversity, recognizes higher education's responsibility to society, and embraces the belief that widespread access to excellent educational opportunities is the cornerstone of a democratic society.

Vision

Worcester State University is dedicated to offering high quality, affordable undergraduate and graduate academic programs and to promoting the lifelong intellectual growth, global awareness, and career opportunities of its students.

Mission

Worcester State University, a public metropolitan institution of higher learning located in a culturally vibrant region of the Commonwealth, affirms the principles of liberal learning as the foundation for all traditional liberal arts and sciences disciplines, while maintaining its historical focus on teacher education. It has expanded its offerings with professional degree programs in biomedical sciences, business, and the health professions. Through its curricula, the university addresses the intellectual and career needs of the increasingly diverse citizenry of central Massachusetts.

Worcester State University is dedicated to offering high quality, affordable undergraduate and graduate academic programs and to promoting global awareness, lifelong intellectual growth, and career opportunities of its students. To this end, the university values teaching excellence rooted in scholarship and community service; cooperates with the business, social and cultural resources of Worcester County; collaborates with other institutions of higher learning in the region, and develops new programs responsive to emerging community needs.

Strategic Priorities FY 2010-FY 2014

RETENTION: Develop diverse program offerings to meet the needs of a changing student population.

A continued decline in the population of traditional college age students will require changes in student recruitment efforts and student services in order to attract and retain a greater share of this declining market and/or new market segments.

ACADEMICS: Promote greater flexibility to address the changing needs of teaching and scholarship.

The changing needs of students, employers, the Commonwealth, and faculty as well as increasing global challenges will necessitate shifts in academic offerings and in the way in which academics are taught and supported.

ASSESSMENT: Develop a culture of assessment that informs all aspects of the College's business operations and academic offerings.

The state government and general public will increasingly demand evidence of educational impact and cost efficiency as justification for public financing.

INFRASTRUCTURE: Modernize existing facilities and prioritize sustainability in infrastructure development.

Despite resource constraints, substantial ongoing support of facility, technology initiatives, and communication processes will be necessary to expand the quality of learning and meet the needs and expectations of students, faculty, and staff.

FISCAL: Continue to deliver quality academic programming, while maintaining the fiscal health of the University.

The University will experience continued and potentially increasing financial constraints in the foreseeable future. WSU must increase its capacity to generate resources that will allow it to pursue strategic, transformational goals.

COMMUNICATION: Develop efficient and effective communications processes to promote the University and to foster greater collaboration on campus.

The University will reinforce its reputation for excellence by raising awareness of its outstanding academic programs and innovative community service initiatives.

Source: 2010 President's Annual Report

Accreditation

Worcester State University is accredited by the New England Association of Schools and Colleges, Inc., a non-governmental, nationally recognized organization whose affiliated institutions include elementary schools through collegiate institutions offering postgraduate instruction.

Accreditation of an institution by the New England Association indicates that it meets or exceeds criteria for the assessment of institutional quality periodically applied through a peer group review process. An accredited school or college is one which has available the necessary resources to achieve its stated purposes through appropriate educational programs, is substantially doing so, and gives reasonable evidence that it will continue to do so in the foreseeable future. Institutional integrity is also addressed through accreditation.

The following programs are also accredited by their respective professional organizations:

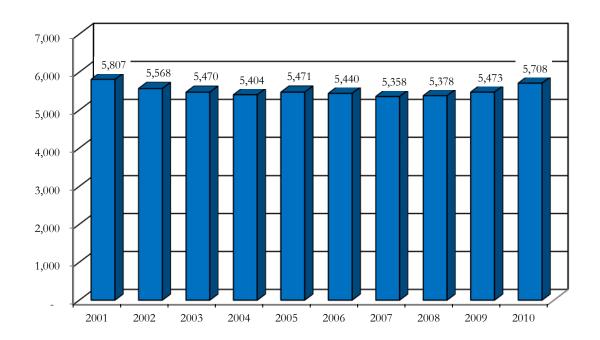

- Nursing: The National League for Nursing
- Speech-Language Pathology: The American Speech-Language-Hearing Association
- Occupational Therapy: Accreditation Council for Occupational Therapy Education
- Nuclear Medicine Technology: The Joint Review Committee on Educational Programs in Nuclear Medicine Technology.

Worcester State University was named the "Best College in Worcester County" in Worcester Magazine's Readers Poll six out of the past nine years. The Princeton Review also designated the College a 2007 "America's Best Value College" and a "Best Northeastern College" from 2004-2010. Worcester State is the only Massachusetts State College named a Best Northeastern College by the Princeton Review for 7 years.
